

International Colloquium on Lightning and Power Systems

On behalf of the Power System Protection Centre of The Netherlands, I am pleased to announce that the Dutch Power System Protection Centre in collaboration with CIGRE Study Committee C4 on System Technical Performance will host the next International Colloquium on Lightning and Power Systems. The colloquium will be held at Delft University of Technology, Faculty of Electrical Engineering, Technical Mathematics and Computer Science from 7-9 October 2019.

We are looking forward to meeting you in Delft,

Dr Dipl-Ing Marjan Popov
Director Power System Protection Centre
